July 2018

Dear Friends,

Greetings! Hope these days of summer bring you times of rest and enjoyment. As you know, the Sisters of Our Lady of Perpetual Help Convent pray in thanksgiving for your generosity every day and remember your requests for prayer for your loved ones.

It was brought to our attention by the dedicated staff of OLPH Convent that the Sisters and guests would benefit from having an electric steam table to keep meals warm while serving. The

Sisters maintain as much independence as possible and with many using walkers, serving themselves takes a bit longer these days. A practical solution is to have the food kept at a safe, warm temperature in a steam table during the serving process instead of on electric heaters. We have done some pricing on electric steam tables and know that we can purchase one for about \$600.

In addition, we have had to increase the Wi-Fi capability at the convent so that internet access can be achieved throughout the building. Often, those coming in from home health agencies such as physical therapists were not able to do their electronic charting. We are also looking into replacing some of the older computers at OLPH Convent.

These are practical needs, but nonetheless, important to the quality of life at OLPH and we are most grateful for all contributions.

There will be some construction underway shortly on the replacement of the bulkhead at OLPH Convent property. We thank you for the assistance you have provided and continue to provide with this project.

May these long warm summer days be a time of peace in your life and may you continue to witness the gentle compassion of Jesus, Eternal and Incarnate Wisdom!

With gratitude,

Sister Cathy Sheehan, D.W.  
Provincial Leader
