

## Yes, that's a Drone

Yes, that's a Drone (top right of photo) used recently to produce an aerial video of Wisdom House Retreat and Conference Center in Litchfield, CT using drone technology; and yes, those are solar panels (left bottom of photo) that according to Administrator, Sister Rosemarie Greco, DW have resulted in significant savings for the center and environment. Installed in August 2011, so far the 80 solar panels have saved \$21,000, and generated 56,000 kWh of energy. Environmentally it has saved 7,850 trees, displaced 79,000 lbs. of carbon, and offset 42,000 barrels of oil. To find out more visit <http://www.wisdomhouse.org>
